TRACKING OVER TIME Standards

COLLECTION

- 1 Repeat collection of PPI data from the desired population is taking place. If tracking changes in poverty levels, repeat collections occur at least once every three years.

REPORTING

- 2 Inclusion of drop-out information (drop-out rate or poverty levels of clients that drop out if possible) of clients within the population being tracked over time with the PPI.
- 3 Regular reporting to management on PPI results and trends (after each data collection or appropriate intervals).
